

# Zensia

The automatic  
Barista arrives for  
vending

**COFFETEK**

# Focus on Coffee quality

## Offer a wide menu of delicious beverages

Zensia brings you a full range of delicious coffee shop style drinks. Whether you want the true taste of **espresso**, a **freshly brewed leaf tea** or something a little more indulgent, Zensia has it all to offer.

Available in two configurations, instant coffee and leaf tea or espresso with leaf tea.

Both models have a fully automatic cup dispense system offering **7, 9 or 12 oz cups**.

## Attractive and customisable: the centre of attention

Finished in stunning ebony gloss Zensia will compliment any environment grabbing the attention of potential consumers.

The design is **minimalist, ergonomic and intuitive**.

- **Exclusive back-lit keypad** with screen effect.
- **Customisable:** Front and decals.

## Distance Selection Technology: Frictionless user experience

Our elegant interface provides up to 20 beverage options on a user-friendly selection panel equipped with the patented Distance Selection Technology allowing a **touchless** selection at a distance of up to 2 cm.

## Modular solutions

Choose the perfect combination for your establishment, combining the snack/food Mistral+ models with Zensia.

The hot drinks equipment can operate as control module using a connection kit. The Mistral+ products are dispensed by choosing the selection via the Zensia. This way you can save space as the Mistral+ independent payment module is not required and choose the snack/food products using the Distance Selection Technology.

## Making your work easier is our main aim

Installation and programming extremely straightforward:

- Pre-installed profiles.
- 20 programmable buttons.
- USB programming.
- Standard EVA-DTS communications option.

Easy maintenance and product replacement:

- Product can be refilled without the removal of canisters.
- Flat surfaces for easy cleaning.
- Soluble system designed to avoid any incidence and product blockage.
- Programmable filter change alerts system.

Security and antivandalism:

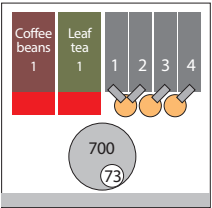

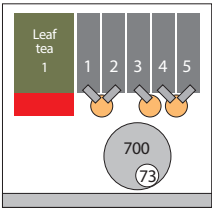

- Acrylic front with rear reinforcement in galvanized steel.
- More secure Cup Station constructed from stainless steel.
- Lower part of the door with a reinforced metal panel.

## Environmentally friendly

Zensia features an advanced economy feature, saving up to 35% in energy consumption, during periods of inactivity the water boiler runs at lower temperature to conserve electricity. It is also possible to set a complete shut down for a given time period.

- **Cup sensor** allows use of own cup reducing plastic and paper cup usage.
- **LED lighting.**
- **Paperless brewing system**, no paper waste.
- A+ energy efficiency certification according to the EVA EMP 3.1B
