

VITRO **SERIES 3**

Capacity, autonomy and usability for excellent coffee

There are times and places where being **productive** is paramount. The VITRO Series 3 is specifically designed for those **locations where continuous and seamless service** is essential.

The VITRO Series 3 features a second high-capacity boiler, a variable brewing group, and a premium touch display for continuous, personalised coffee experiences.

Dual boiler system

Seamless, continuous service and optimum temperature profiles for fresh coffee, hot water and instant beverages.

Variable brewing group

The AZK V30 variable unit offers the option of adjusting the espresso strength by varying the dosage, and also allows you to dispense beverages of different volumes.

High-quality touch display

An eye-catching 13" touch screen that allows easy selection and customisation of beverages and simplifies machine configuration.

Connectivity and fleet management

The VITRO Series 3 is factory-prepared for remote access and fleet management in the cloud. Cloud access and remote services can simply be activated on demand.

Illuminated dispensing area

The illuminated product dispensing area enhances the user experience and contributes to the perfect presentation of the beverages, while the ambient lighting adds a premium look.

Separate hot water spout

For the preparation of tea and other delicious infusions. The separate spout prevents flavour contamination and ensures a pleasant drinking experience.

Optional

Fresh leaf tea brewing system

The perfect fusion of English tea heritage and state-of-the-art technology guarantees a delicious tea experience in as little as 20 seconds.

Intuitive sliding cup stand

The cup stand position can be easily changed to allow dispensing in small or large to-go cups from the coffee or water nozzles without splashes.
